

Have you considered a career in the shipbuilding industry? As a turnkey supplier we are providing tailor made interior solutions to shipyards and shipping companies. With an international team of 120 shipbuilding professionals NIT is located in Finland and Germany. We offer a perspective with international development opportunities for expert positions in the maritime industry.

Currently we are looking for a **Project Manager (Rauma)** for assignments for luxury cruise, passenger and navy vessels. Being in the head of a project a close cooperation with the site team, design department and management is the key to success.

Key tasks:

- Management of the project team
- Contractual reviews
- Calculation and preparation of budget and quotations
- Monitoring of work progress, budget and quality
- Preparation of internal and external progress reports
- Project responsibility
- Managing of project team and project review meetings

Qualification:

- Appropriate technical education
- Previous experience in shipbuilding and project management
- Finnish and English skills
- Monitoring of work progress, budget and quality
- Ability to systematize and make informed decisions with a quick schedule
- Good cooperation and interaction skills
- MS Project software management

With a suitable industry-specific training and experience, Finnish and English language skills, courage, commitment and confidentiality, you bring new perspectives to our comfortable and relaxed work community.

What you can expect:

We are one of the most reliable partners in our industry.

We have a good team spirit, take good care of our staff and have a nice atmosphere in our work community. Our management is actively involved in our daily work. Flat hierarchies and an open door policy are a matter of course for us.

We offer you versatile work tasks and the opportunity to expand your skills according to your own development.
