

Have you considered a career in the shipbuilding industry? We offer a vantage point with international development opportunities for expert positions in the maritime industry.

We are looking for a **Purchaser** to work in international passenger and cruise ship projects in **Germany**.

You participate in our turnkey supplier purchasing operations. You work closely with the Project Manager, Site Manager and design to meet customer expectations at the highest possible level. You add value to the project and work in close cooperation with our partners.

Main tasks of the Purchaser:

- Sourcing potential vendors
- Preparation of invitations to tender
- Contract negotiations
- Commercial and technical comparison of tenders
- Preparation of procurement contracts
- Delivery schedule and quality follow-up
- Definition of procurement entities together with the project team
- Preparation of the procurement schedule together with the Project Manager
- Supports and develops NIT's purchasing together with Procurement Manager
- Reports to Procurement Manager in the line organization and in the projects to Project Manager
- Compliance with the procurement process and instructions specified in the Quality system
- Takes care that the budget, schedule and quality targets are met

We expect: You have at least 2 years purchasing experience in shipbuilding, suitable technical and commercial competence and ability to read technical drawings in shipbuilding perspective. You are good at organizing technical entities. You possess good human relations, negotiating skills and are customer oriented. We expect that you are able to communicate fluently in English in challenging procurement related negotiations. German language skills are a bonus.

Our team consists of people with high motivation, flexibility, sense of humor and desire to develop. Additionally, our team members possess strong team work skills, but also ability to work independently. We make things happen and when meeting challenges we support one another. We concentrate on our turnkey project as a whole and keep in our minds all the phases and the final outcome of the project.
