

**WE BUILD
GREAT SPACES.**
MODERNISATIONS

Getting the best ROI. Boosting the revenue of your existing ship.

A successful modernisation project culminates in having the right people on the right assignments for the project.

TOTAL TURNKEY QUALITY. NIT is committed to total quality in maritime construction projects, from design to installation – without compromising on the required quality or highly specified requirements. Our business focus is on passenger ships, especially interiors, insulation, electricals, piping and HVAC.

We employ all our skills, know-how and energy to help our customers. We listen, use our imagination and create innovative solutions. We use in-house designers and engineers to increase flexibility, encourage innovation and speed up the flow of information.

We enjoy our work and the motivation levels of NIT staff are among the best in our industry. Honesty is an essential part of our corporate culture: we will keep you fully informed of any risks involved in key decisions. This is what NIT means by total quality – from planning through to the finest details and after-sales.
